

COMMERCIAL.

HONOLULU, NOVEMBER 2, 1886.
The British bark Iron Ore, whose arrival from Liverpool was noted in our last issue, has discharged her cargo in the condition. Except at the wharf where she lies, there has been very little doing the past week along the water front.

The Oceanic Mail Steamship Alameda arrived on Sunday morning, about seven o'clock, bringing 700 tons of merchandise for this port and 131 passengers. She also had about 1200 tons of through freight, for the Colonies, consisting chiefly of canned goods 12,781 pkgs in all. After taking on board 351 tons of coal she left at 6:45 a. m. on Monday, for Auckland and Sydney.

The brig Claus Spreckels sailed at noon on Sunday, for San Francisco, taking 110 tons of rice and sundries—just sufficient to put her in fine ballast trim.

Haw bark Star of Devon sailed for Fanning's Island and on the taking chiefly supplies for the trading stations. She will return to this port early in Dec.

By the Alameda's mail we are advised that the Wm. G. Irwin sailed on the 17th. Mr. Wm. Irwin and the J. D. Spreckels on the 22d, and the Consuelo on the 26th, for this port, and are reported as having full cargoes.

Steamship Zealandia was advertised to leave San Francisco Nov. 10 for this port, and will therefore be due here on the 17th.

Steamship Marano arrived at Sydney Oct. 21, twenty-five days from San Francisco. She has been withdrawn from the line, and her place will be taken by the Australia, which leaves Sydney Nov. 4, for Auckland and Honolulu.

The San Francisco Merchant of the 7th ult. publishes the following exports from that port to these islands for the first nine months of the current year, which in the absence of similar statistics from our custom house, possess interest. It says:

For the nine months just ended, the exports were as follows:

First Quarter	\$708,839 17
Second Quarter	\$753,971 18
Third Quarter	\$18,031 20
Total	\$2,280,842 15

"This total is arranged under the following classification, which shows the value of the goods that are free by terms of the Treaty with the United States. It will be seen that they represent nearly four-fifths of the whole. Thus:

How admitted—	Value.
Free by Treaty	\$1,743,696 87
Dutiable	\$536,979 00
Free by Civil Code	\$1,166 28
Total	\$2,280,842 15

"The bulk of the dutiable goods consists of foreign manufactures that are re-exported from this country. The outlook for the remainder of the year is encouraging, and we anticipate a total export trade to the Islands, during 1886, of over \$3,000,000."

The following is Williams, Diamond & Co's circular, per Alameda:

SUGAR.—On the 7th inst. the California Melney reduced their prices on all whites 5c per lb. and 4c per lb. on yellows, and the following day the American Melney advanced their prices 5c per lb. on whites and 4c per lb. on yellows.

This makes the prices of the former 5c below the American on cube, crushed, powdered and XX dry granulated, 5c below plain dry granulated and 4c on golden C and E. C. The American Refinery quote dry granulated at 5c, E. C. 5c, and golden C 5c.

It is reported that the California Melney is running short of raw sugar, and cannot supply their demand, which accounts for the above difference in prices.

EASTERN AND FOREIGN MARKETS.—We have very little to note of interest in these markets, which have continued dull since our last report, and prices have declined both in New York and London.

Our last mail advises of the 22d inst. state that the demand for raws has continued light and the business transacted has been of little importance.

Sellers have found it necessary to modify their views and concessions from previous quotations have been accepted.

The controlling feature of the situation has been the very depressing, lower prices willing to be accepted have not quickened the demand.

Advices from Europe have been unfavorable, and while the statistical position of supplies is improving, estimates of the coming beet crop forebode a larger yield than was anticipated, and the general opinion is that the world's supply next year is likely to be the largest ever made. Refiners therefore adhere to the policy of buying as cheaply as possible and carrying no surplus stocks.

Granulated sugar has sold in New York at 5 1/2c which is below the lowest price ever sold at in this country. The Treasury Department has announced that on and after November 1st, the drawback on refined sugar will be reduced from 1 1/2c to 1c per 100 lbs.

The probable results are difficult to see, but it is not likely to close foreign markets entirely as our refiners still possess advantages over them in this respect.

The following changes have taken place in the Cuba basis here since the last issue: Oct. 25, basis 5 1/4 for 96 per cent; 12th, 5 1/4; 18th, 5 1/4; 25th, 5 1/4; steady. Latest telegraphic advices from New York of 10-day, quote value of Cuba centrifugals 95 per cent test at 5 1/2c, with buyers at that figure. New York market steady. London basis 88 per cent, test, 96c; steady. Crops promise well; estimates present crop unchanged. Next Cuba Crop larger than present.

Market shows no signs of improvement; prospects discouraging.

RICE.—Under heavy importations, price has declined to 4 1/2c, 6 days.

Latest advices from New Orleans report a damaged crop. Damage stated to be about 100,000 bags, and prices likely to be higher.

PORT OF HONOLULU.

BORN.
At Honolulu Ranch, near Lahaina, Maui, to the wife of Mr. J. G. Howie, a daughter. This is said to be the first white child born in the district of Kaanapali.

MARRIED.
HILDER—NORDBERG.—In Honolulu, October 28th, 1886, by Rev. J. A. Cruzan, Mr. J. HILDER to Mrs Ida E. NORDBERG, all of this city.

DIED.
WILHELM—At San Francisco, October 16th, 1886, Kary Wilhelms, sister of Frederick Wilhelms, of this city, aged 19 years and 9 months.

LOVELL—At Nawiliwili, Kaula, October 23d, 1886, JOHN LOVELL, aged about 80 years.

A Cool Robbery.
On Monday, Oct. 25th, Harry McChesney was arrested for taking \$300 from a pocket book on the Friday previous which had a short time before been taken from the safe, and at the time was not missed, until Saturday. Young Harry McChesney who was suspected, had been seen in company with a man named Thomas McGiffin, an ex-policeman, and suspicion attached to him as being connected with the robbery, and he was also arrested. Harry McChesney, in his testimony, before Judge Bickerton, Thursday last, acknowledge taking the money, and handed it over to McGiffin, with the intention of both going to San Francisco by the Mariposa, but McGiffin overruled this idea, and suggested that it would be better to wait until the 30th and go to Australia by the Alameda. From the evidence taken, Judge Bickerton committed both McChesney and McGiffin for trial at the January term of the Supreme Court.

The Hawaiian Hansard.
A copy of this publication has been laid on the editor's table. The Hansard is issued by the publisher of the Daily Bulletin, and is compiled from the very full reports of that journal of the Legislative proceedings from its opening to the close of the session. To all who take an interest in Hawaiian legislative affairs this work will be of great importance, besides being a faithful transcript of the proceedings of the most remarkable session ever held in this Kingdom. A copious index is appended to the book, which comprises 700 pages. To be had at J. H. Soper's, T. G. Thrum's, and at the office of publication.

On the last trip of the bark Hope, from this port to the Sound, Capt. Penhallow, when twenty days out from Honolulu, discovered a Chinese stowaway, who evidently intended slipping into Uncle Sam's dominions without the necessary certificate. Upon making the discovery, Capt. Penhallow immediately put John under arrest in irons, thereby frustrating his "little game," and subsequently brought him back to Honolulu on his return. John is now under the impression that Capt. Penhallow "sabbe mucche."

More health, sunshine and joy in Ameron Co's Hop Bitters than in all other remedies. Observe advertisement.

DR. J. COLLIS BROWNE'S CHLORODYNE.
THE ORIGINAL and ONLY GENUINE.
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary aching of protracted disease, invigorate the nervous system, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma, and all the ailments of the Lungs.
CHLORODYNE acts like a charm in Diarrhea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c., &c.
From Sykes & Co., Pharmaceutical Chemists, Medical Hall, Sinala, January 5, 1880. To J. T. Davenport Esq., 35, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are sorry to say, are now relegated to the native bazaar, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances of the efficacy of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate betrayal of duty. We are, Sir, faithfully yours, Sykes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to—See "The Times," July 13, 1884.
Sold in bottles at 1s. 1/2d., 2s. 9d., 4s. 6d., and 1s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Pir
